AXON | ENERGY PRODUCTS

Statement of Qualifications as Independent Third Party

Axon Energy Products and its subsidiaries Church Energy Services Ltd. (Church Energy), Drilling Controls Inc. (DCI) are established well control equipment manufacturers with multiple manufacturing facilities and over 150 employees that provides engineering design, manufacturing, and aftermarket service of oilfield equipment. Church Energy and DCI are qualified independent third parties under the guidelines of the Bureau of Ocean Energy Management Regulation and Enforcement (BOEMRE). As American Petroleum Institute (API) licensed manufacturers, Church Energy and DCI have state of the art software for computer modeling, stress calculations, material testing and recording. Church Energy and DCI are not owned or controlled by the manufacturer of the equipment to be inspected or tested. Church Energy and DCI have been operating as an American Petroleum Institute (API) for 8 years in the United States. Church Energy and DCI are licensed by the API for the design and manufacture of products from the following Specifications:

1. **API SPECIFICATION 16A/ISO 13533**: Petroleum and Natural Gas Industries: Drilling and Production Equipment: Drill-Through Equipment

2. **API SPECIFICATION 6A/ISO 10423**: Petroleum and Natural Gas Industries: Drilling and Production Equipment: Wellhead and Christmas Tree Equipment

3. **API SPECIFICATION 16C**: Specification for Choke and Kill Systems

4. **API SPECIFICATION 16D**: Specification for Control Systems for Drilling Well Control Equipment and Control Systems for Diverter Equipment

All designs are made by Registered Professional Engineers with extensive experience in the design of blowout preventers and all facets of well control equipment.

Church Energy and DCI specialize in the remanufacture, inspection and certification of well control equipment such as:

1. Ram and Annular Blowout Preventers
2. Ram blocks, packers, etc.
3. Choke and Kill Manifolds
4. Gate Valves, drilling chokes
5. Surface and subsea control systems

Church Energy and DCI will retain and provide the following to BOEMRE

1. Statement of Fact as to the condition of the equipment.
2. Actual field service report of the inspections and condition of the equipment.
3. List of the actual Blowout Preventer equipment inspected.

AXON | PRESSURE PRODUCTS

June 1, 2011

Axon Pressure Products, Inc. ("APP"), a subsidiary of Axon Energy Product AS, is an established well control equipment manufacturer with multiple manufacturing facilities that provides engineering design, manufacturing, and aftermarket service of oilfield equipment. The United States Bureau of Ocean Energy Management, Regulation, and Enforcement (BOEMRE) has recently revised guidelines for what will qualify a company as an independent third party capable of providing the verifications required for BOP compatibility and blind shear ram capability.

APP will warrant and affirm, as of the date herein, that the following is correct and true:

1. APP is licensed by the API for the design and manufacture of products from the following Specifications:

    a. **API SPECIFICATION 16A/ISO 13533**: Petroleum and Natural Gas Industries: Drilling and Production Equipment: Drill-Through Equipment

    b. **API SPECIFICATION 6A/ISO 10423**: Petroleum and Natural Gas Industries: Drilling and Production Equipment: Wellhead and Christmas Tree Equipment

    c. **API SPECIFICATION 16C**: Specification for Choke and Kill Systems

    d. **API SPECIFICATION 16D**: Specification for Control Systems for Drilling Well Control Equipment and Control Systems for Diverter Equipment

2. APP is a sufficiently insured entity as shown by the attached Certificate of Insurance.

3. APP has no knowledge of any record of violations of applicable law or ethical guidelines under penalty of perjury.

4. APP will allow, upon request and reasonable notice, an official representative of the BOEMRE access to applicable, related inspection and testing documents and to the location where inspections and tests take place to verify the information submitted in the application or to witness such inspections or tests.
