Revised - 03 January 2012

OCS-G 31366, Well No. 001ST00BP00, Block 51, Eugene Island Area
Necessary Sacks of Barite to Maintain Onboard For Half Pound Weight Up

Water Depth (0 for submersibles) :	19
Pit Volume	1000
Riser Volume	**8**
Total Surface Volume (bbl)	**1008**

Intermediate liner Hole Diesel-Oil Mud

Casing Setting Depth (ft)	17841
MW at Casing Point (ppg)	18.3
Hole Size (in)	8.5
Required (sxs)	**943**

Maximum Conditions for Production Interval- Diesel-Oil Mud

Casing Setting Depth (ft)	19000
MW at Casing Point (ppg)	18.3
Hole Size (in)	6.5
Required (sxs)	**746**
