Dear Mr. Brotmann:

We acknowledge receipt of a request for termination of the period of liability and cancellation of Outer Continental Shelf Renewable Energy Lessee's, Grantee's, and Operator's Bond No. CMS0337172 in the amount of \$100,000.00 conditioned to cover lease OCS-P 0563. This bond was executed by the surety, RLI Insurance Company, on April 14, 2023, and by the principal, Equinor Wind US LLC, on April 19, 2023.

The Marine Minerals Administration (formerly known as Bureau of Ocean Energy Management), in coordination with Office of Natural Resources Revenue has no objection to the termination of the period of liability under the above bond. Therefore, the period of liability is considered to have ended on March 17, 2026, the date of final concurrence with such termination, and the bond is cancelled without residual liability as of that same date.

If you need further assistance, please contact Keisha Douglas at lakeisha.douglas@boem.gov or (805) 384-6394.

Sincerely,

**DOUGLAS
