In accordance with 30 CFR 556.901(d), additional security may be required for your proposed activities. Prior to conducting activities in which you need to obtain approvals and/or permits described in 30 CFR 550.281(a) from the appropriate District Manager or BSEE Regional Supervisor, you must contact BOEM Risk Management Operations Section by email at boemrmos@boem.gov to determine if additional security is required and comply with any demand for this security.

Our review indicates that there are pipelines in the vicinity of Platform A-Tahiti and associated wells that may pose a hazard to your proposed operations. Therefore, take precautions in accordance with Notice to Lessees and Operators No. 2022-G01, Section V., prior to performing operations.

The Bureau of Ocean Energy Management (BOEM) and the Bureau of Safety and Environmental Enforcement (BSEE) proposed action under the 2025 National Marine Fisheries Service (NMFS) Biological Opinion includes robust avoidance or minimization measures (i.e., protocols), and those measures will continue to be implemented in the Gulf of America as project criteria under the 2026 Endangered Species Committee Order, as well as pursuant to the Bureaus' authority under the Outer Continental Shelf Lands Act (43 U.S.C. §§ 1331 et seq.).

You must comply with the applicable protected species project criteria for all activities conducted pursuant to this plan. The current oil and gas protected species criteria are available on BOEM's website at: <https://www.boem.gov/regions/gulf-america-ocs-region/oil-and-gas-protected-species-project-criteria>. Activities conducted in association with this approval must adhere to all applicable project criteria, including any reporting requirements. BOEM and BSEE will continue to implement these project criteria, including any future amendments or clarifications, as deemed appropriate.

For activities approved prior to March 31, 2026, archived versions of the protocols are available at the above BOEM website link.

The following project criteria found in the link (<https://www.boem.gov/regions/gulf-america-ocs-region/protected-species-project-criteria062026>) are applicable for your proposed activities. The numbering below corresponds to the numbering found in the linked document entitled, *Protected Species Project Criteria for the Oil and Gas Program in the Gulf of America*:

- Attachment 2: The Bureaus' Marine Debris Project Criteria
- Attachment 3: The Bureaus' Vessel Strike Avoidance and Injured and/or Dead Aquatic Protected Species Reporting Project Criteria
- Attachment 4: The Bureaus' Vessel Transit within the Rice's Whale Area as identified in the 2020 Biological Opinion's Reasonable and Prudent Alternative (2020 RWA)
- Attachment 5: The Bureaus' In-water Line Precaution Project Criteria

Attachment 6: The Bureaus' Moon Pool Monitoring Project Criteria
Attachment 10: The Bureaus' Sea Turtle Resuscitation Guidelines Project Criteria

These measures are designed to promote environmental protection, consistent environmental policy, compliance with environmental laws, and safety.

If you have any questions or comments concerning this approval, please contact Tehirah Barkum at tehirah.barkum@boem.gov or (504)736-7504.

Sincerely,

**MICHELLE
